Stage 3 – CPR Program

Dear Parents/Carers,

All students in Stage 3 will have the opportunity to develop their skills and knowledge in performing effective CPR. As a school we believe it is imperative that every child be given the opportunity to learn this vital lifesaving skill and have the knowledge to perform effective CPR, both around water and in the general community. The program also ensures all students have a sound understanding and knowledge on how to perform an emergency response plan in a time of need. To make this program effective stage 3 students will be split into two smaller groups.
